About This Content

There's no business like show business! In his infinite wisdom, El Presidente has decided that our beloved island of Tropico is to be the leading cultural influence on the world stage. To do this, you will produce a blockbuster movie which outclasses every other Hollywood production in existence and sets itself up for endless reboots, sequels and director's cuts in the process.

Every movie needs a set, and for this epic production, the whole island will be prepared for a blockbusting World War II movie. In 'T-Day', you must re-enact the defending of Tropico from its biggest-ever invasion and produce the greatest movie that the world has ever seen!

- New standalone scenario: 'T-Day' – shoot the greatest movie of all time!
- New building: Fortress – every ruler needs his fortress(es)
- New dynasty avatar accessory: Great War Helmet
- New sandbox map: Becouya
- New music track and additional voice recordings

Title: Tropicó 5 - T-Day
Genre: RPG, Simulation, Strategy
Developer:
Haemimont Games
Publisher:
Kalypso Media Digital
Franchise:
Tropicó
Release Date: 23 Jul, 2015

a09c17d780

Minimum:

OS: Windows Vista SP2, Windows 7, Windows 8

Processor: 2 GHz Dual Core CPU

Memory: 4 GB RAM

Graphics: GeForce 400 or higher, AMD Radeon HD 4000 or higher, Intel HD 4000 or higher (DirectX 11 hardware support required)

DirectX: Version 11

Storage: 4 GB available space

Sound Card: DirectX 9.0c compatible soundcard

English,French,Italian,German,Russian

There's not really much to explain about the gameplay that you can't see in the trailers.

It's a 2d hack and slash that has monsters attacking in waves. After the last wave you advance to the next stage until you reach the end of an act.

You level up and upgrade your skills, you can find and buy gear to increase your stats. Unfortunately, there are no unlockable abilities, only things to unlock are the characters.

There are plenty of playable characters to pick from, which all play differently. Sometimes they might seem pretty weak at first, but that gets better as you level up your skills and get some better gear.

Difficulty is a little unbalanced, act 1 and 2 are quite easy, 3 is insanely difficult, 4 is really easy and 5 is medium difficulty. You get a boss on the end of each act, but those are not too hard either.

There's also an endless survival mode with a leaderboard to play.

Can't say anything about the multiplayer part, haven't tried it yet.

Unfortunately, there's not a whole lot of replay value I think, unless you like to play all the characters.

Overall, pretty decent game to kill some time, I really got hooked and was a little disappointed that it feels rather short, so I suggest playing this in small doses.

Not related to the actual gameplay, but the developers seem really nice.

I originally wrote a negative review because of broken controller support and I was personally contacted by a developer after it was fixed! Now that's some service.. While the graphics aren't quite as bad as a lot of people make them out to be, everything else is. The level design is terrible and the game has no proper flow. The presentation doesn't satisfy and the gameplay is horrendous. Stay away from this. Randy Pitchford was full of \u2665\u2665\u2665\u2665\u2665 when he said this game didn't deserve the \u2665\u2665\u2665\u2665\u2665 it gets.. Great Bullet Hell, nice soundtrack. interesting level design. The real gem is the Rogue-like portion. It's an open-world with a countdown timer for boss spawns. The point is to collect upgrades to be able to take down the boss before it spawns. everything in the game feels smooth, runs great. the movement without a controller is a bit clunky, which is not fun in a BH, but overall a great game.. I LOVE These types of games, but wow. This game's skill Checks are absolutely Bananas.

You HAVE TO specialize in 1 class seeing as there is as much as 5 tiers as far as i know maybe more.

(THE STORY IS FANTASTIC, The "Game" aspect is like darksouls). Hopefully there is no spoiler in my review.

The game process itself is quite boring, especially when you have played it for more than 4 hours and is still looking for the right ingredient for your daughter's soul and collecting different creature. In my opinion, the most interesting part of this game is the text, the letters that your creation write to Frost and the description when Frost kill them. The creations are showing their one-way love to Frost and assuming Frost loves them, too. But the killing description shows that Frost don't even care about them, but just act as he loves them or even not doing so. (Some letter shows that Frost ignore their feelings.) Those creatures, from the beginning of their lives, is a tragedy till their end.. Well you definitely get to dab on the haters. No complaints..

Nostalgia puzzler. stupid but fun

ez perfect game

This game was ruined by Microsoft. I bought it bc I was thinking my computer would be more likely to run this version than one of the newer ones. They made me sign up for a Microsoft account as well as an xbox account before telling me to go screw myself. Will not let me sign in and the greedy ducks who made this game will not let you save unless you sign in. Luckily I bought it on sale but I still feel cheated for paying any amount of money for this garbage.. Super

\u2665\u2665\u2665\u2665\u2665\u2665\u2665t Death Deluxe

The title says it all. Take one part falling block puzzle (((Tetris with guns teehee))) game, combine one part old-school \u2665\u2665\u2665\u2665\u2665\u2665\u2665t arcade tactics to suck the money out of you in exchange for pain and suffering, add a couple thousand death screens, blend and serve.

Buy this on sale lol. ...need others DLC to be able to play demonspawn? 0/10. This game pains me to review mainly due to how good this game COULD be, but how much this game fails in certain regards. First off I do want to say this game is HARD, which I appreciate but a lot of stuff in this game is fairly... hard to solve on your own. There were several puzzles I had to ask the developer for help upon, which after much finagling I manage to get answers to.

The bad thing is that all of the game's achievements are tied to the endgame, and one of them the 'bad' ending is fairly difficult to obtain since to obtain it you must get as few ending points as possible, which is hard to do. Plus a lot of bosses have different powers on their abilities based on WHAT MOVES YOU LEARN. This is something never explained which at one point required me to redo a fairly large chunk of the game. And you must complete the game a bear minimum of 3 times in order to complete it, I had to do it 4.

I want to recommend it, but it was made just a little too frustrating.. Story was much better than I thought it would be until (very mild spoilers ahead)..

You're forced into a situation where you have to choose between two horrible 'choices.' It completely ruined the entire experience for me. Trying to create weight or drama to the story by forcing horrific, unavoidable outcomes on the player is lazy and unsatisfying. All it did was ensure I would never play it or anything from this studio again.. Piece of shet
